

**GPS setup check list.**  
Use **BEFORE** setting off

# Garmin GPSmap 62 and 64

Hold down button on right hand side for 2 seconds

**BEFORE YOU START SEARCHING**  
Check these 3 steps:  
The Old (Current) Track must be cleared and GPS set to record your progress

1. Check TRACK LOG is turned ON:  
(Record, Show On Map)
2. Track Log is CLEARED  
(Current Track, ENTER, then Clear Current Track)
3. Recording Interval:  
Record Method = Distance  
Interval = 0.01km (not 0.10km)  
(10m) (100m)  
Color: Choose what you want to show your "bread crumb" track
